

**DEPARTMENT OF COMPUTER SCIENCE PROGRAMME OUTCOMES OF
 UNDERGRADUATE PROGRAMMES
 (2016 – 2017 onwards)**

Name of the Programme: B. Sc., Computer Science	
PO 1	Understand, analyze and develop computer programs using C Programming language that aid in development of Compiler and networking for efficient design of computer-based system
PO 2	In order to enhance the programming skills related to the real-world applications the students are introduced with the Object-Oriented Concepts and develop their skill in application building
PO 3	Enhancing of the Object-oriented Concepts in Networking area to make the IT aspirants strong in the pure Object-Oriented concepts too
PO 4	In order to enhance programming skills of the young IT professionals, the program has introduced the concept of Database Management System during this semester
PO 5	To augment the ability of IT Students in the designing of the computing systems that handle the algorithm approach and learnt software engineering practices and strategies in software project development using open-source programming environment to deliver a quality of product for business success
PO 6	In order to enhance programming skills of the young IT professionals, the program has introduced the concept of project development in each language/technology learnt during this semester
